About “ NABOLIA

The idea of establishing Nabolia company began with the aim of providing a large factory with great potential to serve as an integrated factory for everyone working in the furniture sector in various activities.

Since the beginning of the establishment in 1998 the company has gained the trust of different customers from manufacturers, designers, importers and so on. The company relies in its dealings with customers on the principle of "integrity." We value our customers and seek only to achieve their interests.

Our goal is not to be a competitor for our clients but our goal is to expand the scope of our clients work and provide the full manufacturing and executive cycle, starting with the provision of materials and accessories and their formation or implementation of design and installation and so on.
